MODEL F03-11 Protective cover MODEL F03-12 Holder mounting frame

## **INSTRUCTION MANUAL**

Thank you for purchasing the Model F03-11 Protective cover or F03-12 Holder mounting frame. Before using it, thoroughly familiarize yourself with the instructions in this manual. It is recommended that you save this sheet for future reference.

## Model F03-12 Holder mounting frame

Applicable electrode holders (Model PS-3S(R), PS-4S(R), PS-5S(R))

wiring.

Mounting method 2

1. Bore the mounting positions.

Mounting method 1 (flange mounting) 1. Bore the mounting positions.

Working dimensions of mounting bores

2. Fix the holder mounting frame to the above worked bores. (Clamp it at four parts using the screws attached to it.)

with the screws, after that, insert the electrode rod into it and carry out its

clamping of the holder mounting frame is inpossible.

electrode holder (PF-2) mounting holes on a working object, and the screw

3. Clamp the electrode holder (PS Series) body to the holder mounting frame Mounting to the Model BF Series electrode holder 1. Exchange M5 x 25 mounting serves which are used 1. Exchange M5 x 25 mounting serves which are u

- Exchange M5 x 25 mounting screws which are used for the mounting parts of the Model BF electrode holder to the special screws (hollow screw worked M5 x 25) attached to the protective cover, and fix the BF to the determined positions and carry out its wiring.
- 2. Clamp the protective cover to the electrode holder using M3  $\times$  20 screws and washers attached to it.

#### \_\_\_\_\_

- Precautions for the environment
   Use and preserve within the proper temperature and humidity described in
- the specifications. Temperature of surroundings and use : -10 to 70 (Type F03-11, F03-12) Temperature of surroundings for storage and use :

**Precautions for Safe Use** 

- 25 to 95% (Type F03-11), 25 to 85%RH (Type F03-12)
- Preserve and use without exposing to danger of explosion, flammable dust,
- gas and vapor, solvent, excessive dust, and saline or droplets.
- Avoid preserving (including furing transportation) and using in a place which is vulnerable to flooding or oil spillage.
- Avoid preserving (including furing transportation) and using in a humid place, in a corrosive gas environment, outdoors and in place which receives direct sunlight.
- · Avoid contact with solvent and liquids such as acid, alkali, etc.
- 2. Cautions for Use
- Read the instruction manual and catalog before operating and maintaining the product.
- When fixing the protective cover (Type F03-11) to the holder mounting frame (Type F03-12), push the cover firmly until it makes a clicking sound.
- If the cover is not firmly installed, there is a nsk of it becoming detached and falling.
- $\cdot$  When discarding, follow the instructions of each local government, etc.

### **Precautions for Correct Use**

- Check the application.
- Make sure that electrode probes in the liquid do not come in contact one another as it may cause malfunction. Use separator when connecting.
  Tighten nuts for electrode probe(s) firmly.

2. As shown in following figure, insert the electrode holder and screw the holder mounting frame from below and clamp with it instead of a nut.

## Model F03-11 Protective cover

/ Applicable electrode holders

Model BF-3(R), BF-4(R), BF-5(R) (It is impossible to mount for Model BF-1.) Model PS-3S(R), PS-4S(R), PS-5S(R)

Dimensions

Mounting to the Model PS Series electrode holder <sup>7</sup> The protective cover is mounted by means of the Model F03-12 holder mounting frame. However, its mounting is only for the flange mounting of the holder mounting frame (the mounting method 1).

1.It is mounted by a one-touch joint from the top of the Model PS electrode holder which was mounted by means of the Model F03-12 holder mounting frame. Push the cover until it makes clicking sounds.

\* In this case, the hollow screws attached to the protective cover are unnecessary.

### Suitability for Use

OMRON shall not be responsible for conformity with any standards, codes, or regulations that apply to the combination of the products in the custormer's application or use of the product.

Take all necessary steps to determine the suitability of the product for the systems, machines, and equipment with which it will be used.

Know and observe all prohibitions of use applicable to this product.

NEVER USE THE PRODUCTS FOR AN APPLICATION INVOLVING SERIOUS RISK TO LIFE OR PROPERTY WITHOUT ENSURING THAT THE SYSTEM AS A WHOLE HAS BEEN DESIGNED TO ADDRESS THE RISKS. AND THAT THE OMRON PRODUCT IS PROPERLY RATED AND INSTALLED FOR THE INTENDED USE WITHIN THE OVERALL EQUIPMENT OR SYSTEM.

See also Product catalog for Warranty and Limitation of Liability.
